Note 1. If boats do not all complete the same number of laps, please fill in the actual number of laps for each, and use the Add-a-lap tables to scale the time up as necessary.
Note 2. Use the handicap tables to obtain the corrected time in seconds.
Note 3. When there are multiple starts, enter the start time for each boat, as the number of minutes after the first start (do write a "0" if appropriate).
Record the finishing time exactly as shown on the watch, but subtract the start delay before you look-up the time in the tables.

Race officer: Please email a photo or scan of the completed sheet to sailwave@hlstcmembers.org.uk if not collected on the day. Store original in back classroom.
